OBJECTIVES

To work as a UI/UX Designer in any Tech Company, bringing robust experience in gathering and translating user data into design decisions and products.

PROFESSIONAL SUMMARY

As a goal-focused Multidisciplinary individual with 3 years of experience in UI/UX design. I'm passionate about creating a user-centered design and solving problems through simple and minimalistic designs, gathering and translating user data into design decisions and products. I am very fond of new materials and technology and my work focuses on blending innovation and sustainability to Design products or services, solving problems, I can design user-interface pages that promote user interaction with the information and in addition to good visual abilities, I also possess great presentation skills. Inspired by innovation, I thrive on experimenting with different concepts and have been commended for inspiring and developing unique and thought-provoking ideas. Bringing strengths in communication, time-management and critical thinking, I know that my creative abilities will serve to bring valuable additions. These strengths, combined with my passion for the industry have created a strong foundation to meet the needs of the UI/UX Designer opportunities.
